To whome it may concern,I would highly urge you to reject petition 04-160. I pay for my XM Satellite service and should be able to listen to what I would like. XM provides a service that I cannot get elsewhere. I use the traffic and weather channel several times a day and would be lost without it. It provides better service than local stations. Again I HIGHLY urge you to reject petition 04-160. Thank you for your time.
